

ISU Creamery Tour Request

Thank you for your interest in touring the ISU Creamery. We are excited to teach you about the creamery! Below is a general outline of our tour.

- 1) Meet by the large soybean at the east entrance inside the Food Sciences Building.
- 2) Visit the courtyard to discuss the history of the ISU Creamery.
- 3) Visit the micro-creamery to learn how we make ice cream and cheese.
- 4) Visit the retail store to learn about our student staff and the opportunity for guests to purchase products in the store.

Our tours typically last between 20 – 45 minutes, depending on the depth of information that your group is interested in receiving and questions. The tour will be led by ISU Creamery student employees and/or staff members.

Tours are preferred during the ISU Creamery store hours (<https://www.creamery.iastate.edu/>). If your tour is given outside of retail store hours, then scoops will not be available for purchase, but products from the display freezer (pre-packed ice cream & ice cream sandwiches) and cooler (bagged cheese curds or aged Cheddar) will be available for purchase.

If your group arrives 10+ minutes after the tour's scheduled start time, then the tour will not be given. A new tour time will have to be rescheduled by emailing creamery@iastate.edu.

Please fill out the information below so we can best serve your group. Email the completed form to creamery@iastate.edu.

Group Leader Name: _____ Phone: _____

Number of guests attending the tour (tours larger than 15-20 will be split): _____

Approximate age/experience level of guests: _____

Time available for a tour (20min – 45min): _____
